Fundamental of Robotics

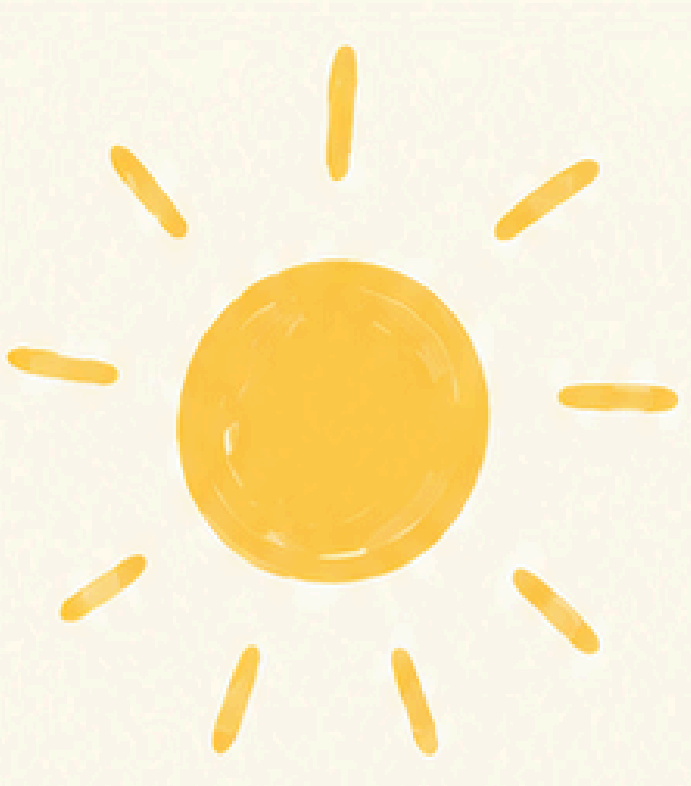

Empowering Educators with Future-Ready Skills!

At Sunbeam School Ballia, continuous learning goes beyond the classroom. Our Computer Science teachers participated in a dynamic 3-Day Training Programme on Fundamentals of Robotics from 27th to 29th May 2026, gaining hands-on exposure to cutting-edge technologies shaping the future.

Led by Maan Singh Yadav, the session explored key concepts such as Internet of Things (IoT), Robotics, and PCB Design, equipping educators with the knowledge and skills to foster innovation-driven learning experiences.

By investing in teacher development today, we are preparing our students to thrive in the technology-driven world of tomorrow.

Sanskrit teacher training

We are proud to share that our Sanskrit teacher, Mr. Amrendra and Ms. Anuradha, TGT (Hindi & Sanskrit) , are participating in a 10-Day Sanskrit Teacher Training Program being held from 3rd June to 13th June at the Ashok Singhal Vedic Research Institute, Gurugram, Haryana.

This enriching program aims to empower Sanskrit educators, promote the Sanskrit language, deepen cultural understanding, enhance experiential learning, encourage Yoga and mental well-being, and foster social harmony.

We wish Mr. Amrendra and Ms. Anuradha a rewarding learning experience and look forward to the valuable knowledge, insights, and inspiration he will bring back to further enrich our school community.

World Environment Day

With caring hands and green hearts, our students planted saplings in pots, taking a meaningful step towards a more sustainable future. This simple act teaches responsibility, nurtures a love for nature, and reminds us that every plant contributes to a greener, healthier world.

Growing plants today, growing environmental consciousness for tomorrow.

IJARESM

Celebrating Excellence Beyond the Classroom!

At Sunbeam School, Ballia, we nurture young minds to think, explore, and contribute meaningfully to society. We are immensely proud of Mas. Gaurav Singh for achieving a remarkable academic milestone by co-authoring a research paper alongside Mr. Neeraj Singh (PGT Physics) titled: "Environmental Sustainability and Pollution Control: Challenges and Solutions in the Modern World"

Published in the International Journal of All Research Education & Scientific Methods (IJARESM), Volume 14 (June 2026), this accomplishment reflects Sunbeam's commitment to fostering research, innovation, critical thinking, and academic excellence.

Such achievements are a testament to the vibrant culture of mentorship and intellectual growth that defines the Sunbeam family. We congratulate both our student and teacher on bringing laurels to the institution and inspiring the next generation of scholars.

World Blood Donor Day

World Blood Donor Day is observed every year on 14 June to thank voluntary blood donors and raise awareness about the importance of safe blood donation. A single blood donation can save up to three lives, offering hope to patients in need of surgeries, emergencies, and life-saving treatments. By donating blood, we not only save lives but also inspire compassion and humanity. Let us spread awareness and encourage more people to become regular blood donors.

Every drop counts. Every donor is a hero.

International Yoga Day

Celebrating International Yoga Day 2026
Our school came together to embrace the timeless practice of yoga, fostering health, mindfulness, and inner harmony. With enthusiastic participation from students and staff, the day served as a reminder that a balanced mind and a healthy body are the foundation of lifelong learning. Together, we stretch, breathe, and grow towards a healthier future.

Sunbeam School Ballia Students Bring Glory on International Yoga Day 2026

On the occasion of International Yoga Day 2026, students of Sunbeam School Ballia participated in a range of competitions organized under the initiative of the District Administration Ballia and the Ayush Department, including Yoga Rangoli, Slogan Writing, Essay Writing, Yogasana Sports, and Painting. Their commendable performances earned them several accolades at the district level.

In another proud moment for the school, Khushi Yadav (Class 10-F) and Anshika Rai (Class 12-D) were entrusted with leading the International Yoga Day Protocol session, guiding respected dignitaries and participants on one of the district's largest public platforms.

The achievements reflect the students' commitment, discipline, and enthusiasm, bringing pride and recognition to the entire Sunbeam School Ballia family.

Pradiptam 2.0

Some journeys never truly end—they simply come full circle.

Pradiptam 2.0 | Alumni Meet 2026–27 was a heartfelt celebration of memories, friendships, and the timeless bond that every Sunbeam carries forever.

From revisiting classrooms to reliving unforgettable moments, every smile reflected a story, every reunion rekindled a connection, and every conversation reminded us that once a Sunbeam, always a Sunbeam.

Here's to the memories that shaped us and the legacy that continues to inspire generations

Workshop on Teaching and Learning Physics

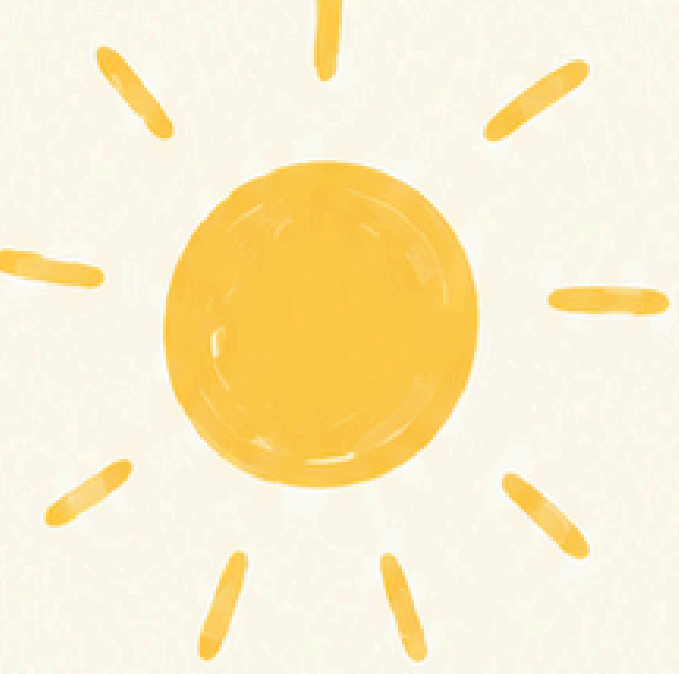

Physics begins not with formulas, but with the simple act of wondering why things happen. Inspired by the profound insights of Padma Shri Prof. H. C. Verma our PGT Physics faculty—Mr. Neeraj, Mr. Avinash, and Mr. Rajat—proudly represented Sunbeam School Ballia at the National Level Workshop on Teaching and Learning Physics held at Sunbeam School Mughalsarai.

Over three enriching days, the workshop celebrated curiosity, experimentation, and the belief that every child is a born scientist. Through engaging demonstrations, meaningful discussions, and interactive learning experiences, participants explored innovative approaches to making Physics more experiential, inquiry-driven, and relatable.

At Sunbeam School Ballia, we remain committed to empowering our educators with continuous professional development, ensuring our students benefit from inspiring, concept-based learning that extends far beyond the classroom. Learning never stops. Curiosity never ends.

Student Council Investiture ceremony

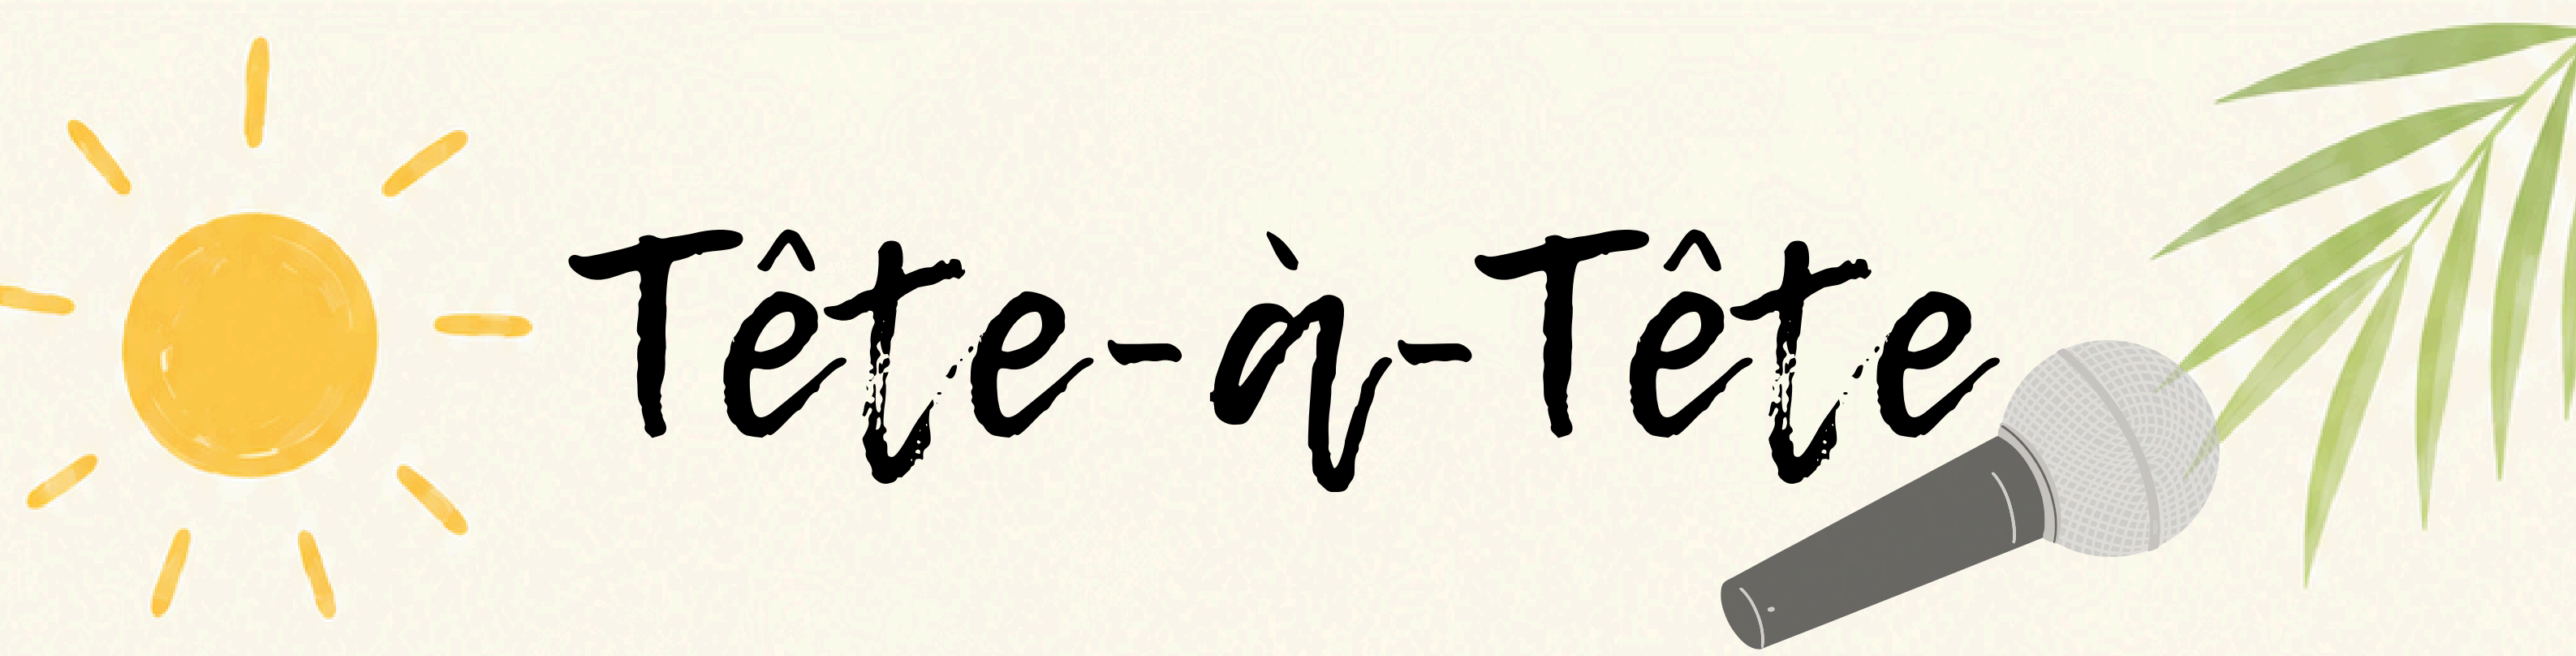

Leadership is not a position—it
is a responsibility.

Today, Sunbeam School Ballia
proudly entrusted the Student
Council 2026-27 with the
honour of leading by example,
serving with integrity, and
inspiring positive change.

The Investiture Ceremony
marked the beginning of a
new chapter where young
leaders pledged to uphold the
values of discipline,
responsibility, and excellence
that define the Sunbeam
legacy.

Here's to a team that will
lead with confidence,
compassion, and commitment.
Congratulations to the Student
Council 2026-27!

An Inspiring Conversation. A Defining Moment.

Sunbeam School Ballia had the distinct privilege of hosting Mrs Amrita Burman, Eminent Educationist and Director, Sunbeam Group of Educational Institutions, for an enriching edition of Tête-à-Tête.

Her visionary thoughts, invaluable experiences, and unwavering commitment to holistic education inspired every listener present. The interaction was more than a conversation –it was a masterclass in leadership, excellence, and purposeful learning.

At Sunbeam School Ballia, we believe that such meaningful engagements broaden horizons, ignite aspirations, and empower our learners to dream bigger and achieve higher. We extend our heartfelt gratitude to Mrs. Amrita Burman for gracing our campus.

An Inspiring Day at Sunbeam
