VOL.01 2026-27

FOUNDATION

01 What is Entrepreneurship & Why the Mindset Matters

"is about seeing a problem where others see inconvenience,

"Entrepreneurship is not just about starting a business — it and having the courage to build the solution."

DEFINING ENTREPRENEURSHIP

Entrepreneurship is the process of designing, launching, and running a new venture or enterprise. It goes beyond commerce — it is a way of thinking. An entrepreneur identifies opportunities, takes calculated risks, and creates value where none existed before.

At its core, entrepreneurship is about problem-solving with purpose. It can manifest as a new product, a social initiative, a creative project, or a community-driven solution. The entrepreneur is the architect of change.

WHY IT BEGINS IN SCHOOL

Research consistently shows that entrepreneurial habits of mind — curiosity, resilience, initiative, and creative problem-solving — are most effectively cultivated during formative years. When students learn to think like entrepreneurs early, they carry those capacities into every field they enter.

Sunbeam believes that every child has the spark of an innovator. Our role is to fan that flame.

Curiosity & Inquiry

Asking "why not?" and constantly seeking to understand how things work and how they can be improved.

Resilience & Grit

Embracing failure as a teacher, bouncing back stronger, and persisting toward meaningful goals.

Creative Thinking

Generating original ideas and connecting dots across different fields to create novel solutions.

Collaboration

Building teams, communicating ideas clearly, and knowing that great ventures are rarely solo endeavors.

OUR STORY

02 The Journey of Kidspreneurship at Sunbeam

• THE SEED

Planting the Idea

Sunbeam's leadership recognized that tomorrow's world demands more than academic knowledge. The Kidspreneurship programme was conceived to embed entrepreneurial thinking into the very fabric of learning from primary school onwards.

• THE SPROUT

Pilot Workshops & Idea Labs

Initial workshops introduced students to design thinking, market awareness, and basic financial literacy. Idea Labs became a safe space where every concept was treated with respect, and no idea was too bold or too simple.

• THE BLOOM

Student Ventures Take Shape

PROGRAMME SPOTLIGHT

The Sunbeam Kidspreneurship model is built on three pillars: Learn — structured workshops and expert sessions; Make — hands-on project sprints where students build real prototypes; and Launch — presenting their ventures to an authentic audience of parents, teachers, and community members.

This cycle repeats and deepens each year, ensuring students develop both the skills and the confidence of true young entrepreneurs.

WHAT MAKES US DIFFERENT

Unlike one-off events, Sunbeam's programme is embedded in the academic calendar.

Entrepreneurship isn't an extracurricular — it's a

Students began pitching real mini-ventures — from eco-friendly product lines to peer tutoring networks. Mentors from the business community joined as guides, and the programme earned recognition at inter-school competitions.

THE HARVEST

A Thriving Ecosystem

Today, Kidspreneurship at Sunbeam is a structured, year-round initiative. Students from Grades 4–12 participate in tiered programmes tailored to their readiness, culminating in an annual Sunbeam Ventures Showcase.

lens through which students see every subject, from Mathematics (financial planning) to Science (innovation) to Language (pitching and storytelling).

Digital Solution for Local Community

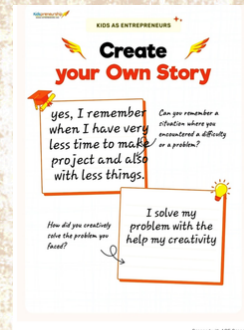

A Grade 10 duo built a simple app to help local artisans connect with buyers online — the project was featured in a regional newspaper and earned a civic commendation.

Grade 10 Duo

National Pitch Competition Finalists

Three Sunbeam students reached the national finals of the Young Entrepreneur Pitch Competition, presenting their health-awareness initiative to a panel of industry leaders.

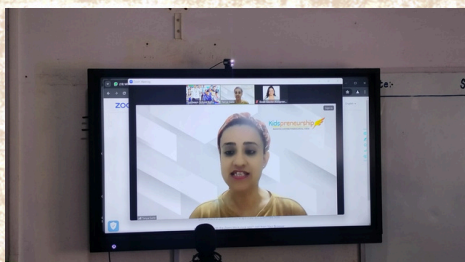

PEDAGOGY

04 Entrepreneurship Inside the Classroom

1

2

3

TEACHER'S VOICE

"When we gave students a real problem to solve — not a textbook exercise — the quality of their thinking changed overnight. They stopped asking what the right answer was and started asking what the best solution could be."

INCLUSIVE BY DESIGN

Our classroom inclusion model ensures every learner — regardless of academic standing — finds a meaningful role in entrepreneurial projects. From creative directors to financial planners to outreach coordinators, every child contributes, and every contribution matters.

Professionals and entrepreneurs from diverse industries visit Sunbeam to share their journeys. Students engage in Q&A, participate in case studies, and gain insight into the real world of building ventures.

4

Reflection & Growth Journals

Each student maintains an Entrepreneurship Growth Journal — documenting ideas, failures, breakthroughs, and lessons. This builds metacognitive skills and a habit of continuous self-improvement.

THE FUTURE

Entrepreneurship as a Career: Pathways for Our future entrepreneur

The entrepreneurial mindset is no longer confined to business. Today's most impactful careers — in technology, healthcare, education, the arts, and public service — reward the same qualities we nurture in our Kidspreneurs: initiative, adaptability, creative problem-solving, and the courage to try. Sunbeam prepares students not just for existing careers, but for roles that have not yet been invented.

Powering Dreams: India's Support System for Entrepreneurs

India's entrepreneurial ecosystem is backed by specialized national institutes, apex banks, and government bodies that provide training, incubation, and seed funding. Top institutional pillars include the Entrepreneurship Development Institute of India (EDII) for training, NIESBUD for small business development, and SIDBI for financial access

Training & Development Institutes

- Entrepreneurship Development Institute of India (EDII): An Ahmedabad-based apex body sponsored by financial institutions like IDBI and SBI
- National Institute for Entrepreneurship and Small Business Development (NIESBUD): Noida
- Indian Institute of Entrepreneurship (IIE): Based in Guwahati,

Funding and Financial Institutions

- Small Industries Development Bank of India (SIDBI): The principal financial institution for the promotion, financing, and development of the MSME sector, offering direct and indirect finance.
- National Bank for Agriculture and Rural Development (NABARD): Promotes rural entrepreneurship, micro-enterprises, and agriculture-based startups through credit support and capacity-building programs.
- National Small Industries Corporation (NSIC): A Miniratna PSU providing integrated support services to MSMEs in the areas of finance, technology, and marketing.

Innovation and Incubation Support

- Atal Innovation Mission (AIM): A flagship Government of India initiative set up under NITI Aayog to promote a culture of innovation and entrepreneurship by establishing Atal Tinkering Labs and Incubation Centres nationwide.
- Startup India Seed Fund Scheme: Managed by the Department for Promotion of Industry and Internal Trade (DPIIT), it provides financial assistance to startups for proof of concept, prototype development, and product trials.

₹100 STARTUP CHALLENGE

⇒ Small Investment, Big Ideas! ⇐

WHY IT MATTERS

The activity helps students understand that entrepreneurship is not only about money, but also about ideas, planning, and confidence. It teaches them that even a small amount can be transformed into an opportunity through innovation and smart thinking.

OBJECTIVE

To introduce students to the fundamentals of entrepreneurship by challenging them to think creatively and practically about starting a small business with just ₹100. The activity aims to build confidence, innovation, and financial awareness.

WHAT STUDENTS LEARN

- ✓ Budgeting and cost calculation
- ✓ Pricing and profit estimation
- ✓ Creative thinking and problem-solving
- ✓ Planning and decision-making
- ✓ Communication and presentation skills

HOW TO DO IT

- Students imagine that they have only ₹100 to begin a business venture.
- They brainstorm a product or service idea.
- List the materials required and estimate the cost.
- Decide the selling price and calculate the expected profit.
- Think about target customers and ways to promote the product.
- Present the idea through a chart, worksheet or mini business plan.

Budget
₹100

Item	Cost (₹)
Raw Material	60
Packing	10
Others	10
Total	100

Selling Price
₹150

Profit
₹50
